

WHEN WILL MY RESULTS BE AVAILABLE?

Results are first sent to the doctor who referred you to us so that they can review the information in context of your overall health. We generally make results available seven (7) days after your exam. Your referring physician group may request a different hold period which would vary when you could see results. If you have questions on this, contact your referring physician group.

I AM UNABLE TO VIEW IMAGES.

Images are made available through our web based DICOM viewer that does not require a download. Supported browsers are Chrome and Internet Explorer 10 and higher. Other browsers may work but they are not supported at this time. If you're having problems viewing images on your computer, call our Operations Support team at 877-302-9814 (M - F 6:00 am - 8:00 pm CST).
